

## Preferred Drug List

The True Rx Management Preferred Drug List is a guide within select therapeutic categories for clients and their plan participants. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand name medicine to treat a condition. The preferred brand name medicines are listed to help identify products that are clinically appropriate and cost-effective. Generics listed in therapeutic categories are for representation purposes only and not meant to be all-inclusive. This list represents brand products in CAPS and generic products in lowercase.

### Plan Participant

### Healthcare Provider

Your benefit plan provides you with a prescription benefit program. Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list along when you, or a covered family member, sees a doctor.

- **Generic** drugs are listed in lowercase.
- Preferred **Brand** name drugs are listed in CAPS.
- Brand name drugs not listed are Non Preferred.

Your patient is covered under a prescription benefit plan. As a way to help manage healthcare costs, authorize generic substitution whenever possible. If you believe a brand name product is necessary, consider prescribing a brand name on this list.

- Generics should be considered the first line of prescribing.
- This drug list is not inclusive nor does it guarantee coverage, but represents a summary of prescription coverage.
- The plan participant's specific prescription benefit plan may have different co-pay for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.

#### **-ANTI-INFECTIVES-**

#### ANTIBIOTICS

#### **CEPHALOSPORINS**

cefaclor  
cefdinir  
cephalexin  
cefadroxil  
cefuroxime  
cefprozil  
cefpodoxime

#### **ERYTHROMYCINS /MACROLIDES**

azithromycin  
clarithromycin  
erythromycins  
clarithromycin ext-rel  
macrodantin  
furadantin

#### **MALARIA**

chloroquine  
mefloquine  
hydroxychloroquine

#### **QUINOLONES**

AVELOX  
CIPRO SUSPENSION  
LEVAQUIN  
LEVAQUIN LEVA-PAK  
ciprofloxacin  
ciprofloxacin ext-rel

#### **PENICILLINS**

amoxicillin

amoxicillin-clavulanate  
dicloxacillin  
penicillin vk  
ampicillin

#### **SULFONAMIDES**

sulfameth/trimethoprim

#### **TETRACYCLINES**

doxycycline  
minocycline  
tetracycline

#### **TUBERCULOSIS**

ethambutol  
isoniazid  
rifampin

#### **MACROLIDES**

ERYPED  
ERYPED 400

#### **MISCELLANEOUS**

FURADANTIN  
metronidazole  
nitrofurantoin  
clindamycin

#### **ANTIFUNGALS**

GRIS-PEG  
fluconazole  
ketoconazole  
terbinafine  
nystatin

#### **ANTIVIRALS**

acyclovir
