

Compare our card and save.

What makes our card better than all other cards?

1. It provides the best savings program, with between 15%-75% savings on ALL prescription drugs (actual average of 55% for all prescriptions filled).
2. If you already have a pharmacy benefit, your card usually excludes many drugs from coverage. Drugs typically excluded are anorexiant, appetite suppressants, antacids, anit-obesity, contraceptive devices and implants, cosmetic drugs for hair growth or wrinkles, diagnostic supplies and devices, hypnotics and sedatives, immunizations and vaccines, drugs for impotence, fertility, injectable supplies, medical supplies, nutritional supplies, smoking cessation prescriptions, prenatal vitamins, and many more. OUR CARD PROVIDES DISCOUNTS FOR ALL OF THESE.
3. Many pharmacy card programs sell your personal information to drug and insurance companies. We consider that an invasion of your privacy. WE DO NOT SELL YOUR PERSONAL INFORMATION TO ANYONE. WE RESPECT YOUR PRIVACY.
4. The DataRx Prescription Savings Card is accepted by all major chains and most independent pharmacies—that's over 60,000 pharmacies nationwide.

Visit our website and gain access to our drug price lookup tool as well as a list of participating pharmacies in your area.
